

I am writing this short note to tell you how happy I am with my new Daikin A.C. and the "great service" the two installation men gave me on Friday, May 23, 2014. The two men put up with my questions and still did a great and fast install. They did all the little extras and made everything look great. I would ask for them to work on my problems every time. Great job. The man that came out first, (Jeremy) was very good at informing me about the different types.

A very good crew you have with these three men. Thanks

Terry Henrich
